

INSTALLATION MANUAL

AIR CONDITIONER

Please read this installation manual completely before installing the product.

Installation work must be performed in accordance with the national wiring standards by authorized personnel only.
Please retain this installation manual for future reference after reading it thoroughly.

IMPORTANT SAFETY INSTRUCTIONS

READ ALL INSTRUCTIONS BEFORE USING THE APPLIANCE.

Always comply with the following precautions to avoid dangerous situations and ensure peak performance of your product.

WARNING

It can result in serious injury or death when the directions are ignored.

CAUTION

It can result in minor injury or product damage when the directions are ignored.

WARNING

- Installation or repairs made by unqualified persons can result in hazards to you and others.
- Installation work must be performed in accordance with the National Electric Code by qualified and authorized personnel only.
- The information contained in the manual is intended for use by a qualified service technician familiar with safety procedures and equipped with the proper tools and test instruments.
- Failure to carefully read and follow all instructions in this manual can result in equipment malfunction, property damage, personal injury and/or death.

Installation

- Be sure to request to the service center or installation specialty store when installing products.
It will cause fire or electric shock or explosion or injury.

- Request to the service center or installation specialty store when reinstalling the installed product.
It will cause fire or electric shock or explosion or injury.
- Do not disassemble, fix, and modify products randomly.
It will cause fire or electric shock.
- Be sure to turn off power before installation. It will cause electric shock.
- Installation work must be performed in accordance with the national wiring standards by authorized personnel only.
- Always perform grounding.
 - Otherwise, it may cause electrical shock.
- You need to use a safely insulated power supply which follows IEC61558-2-6 and NEC Class2.
 - If you do not follow, It may cause fire, electric shock, explosion or injury.
- Securely attach the electrical part cover to Module.
 - If the electric part cover of Module is not attached securely, it could result in a fire or electric shock due to dust, water, etc.

In-use

- Do not place flammable stuffs close to the product. It will cause fire.
- Do not allow water to run into the product. It will cause electric shock or breakdown.
- Do not give the shock to the product. It will cause breakdown when giving the shock to the product.
- Request to the service center or installation specialty store when the product becomes wet.
It will cause fire or electric shock.
- Do not give the shock using sharp and pointed objects. It will cause breakdown by damaging parts.
- Do not touch the board when the power is connected. It can cause a fire, electric shock, explosion, injury and problem to the product.

- Unplug the unit if strange sounds, smell, or smoke comes from it.
 - Otherwise, it may cause electrical shock or a fire.
- The appliance must only be supplied at safety extra low voltage corresponding to the marking on the appliance.
- This appliance is not intended to be accessible to the general public.

CAUTION

In-use

- Do not clean using the powerful detergent like solvent but use soft cloths. It will cause fire or product deformation.
- Do not press the screen using powerful pressure or select two buttons. It will cause product breakdown or malfunction.
- Do not touch or pull the lead wire with wet hands. It will cause product breakdown or electric shock.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
Children should be supervised to ensure that they do not play with the appliance.

ENGLISH

Disposal of your old appliance

1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

MODBUS GATEWAY SPECIFICATION

Components

Modbus Gateway (1 EA)

Installation Manual (1 EA)

Part Description

- ① Power : DC 12 V
- ② RS485 (CH1) : To 3rd Party Controller
- ③ RS485(CH2) : To Outdoor Unit
- ④ DIP Switch(SW_01M) : Not Used
- ⑤ DIP Switch(SW_02M) : Modbus Address Setting
- ⑥ RST_2 : Reset
- ⑦ SW1 : Not Used
- ⑧ DIGITAL INPUT(DI1~DI4) : Not Used
- ⑨ DIGITAL OUTPUT (DO1~DO2) : Not Used
- ⑩ Display (LED)
 - LD01M / LD02M : BMS & 3rd party Tx / Rx
 - LD03M / LD04M : Outdoor Unit Tx / Rx
 - LD05M : Indoor Unit Searching
 - LD06M : Error

CAUTION

- This model requires external power supply (DC 12 V)
(Select an insulating transformer that complies with IEC61558-2-6 and NEC Class 2.)
- Please check the product operation range below.

Power supply		DC 12 V
Product operation range	Ambient temperature	-20 ~ 65 °C
	Humidity	0 ~ 98 % (Non-condensing)

MODBUS GATEWAY INSTALLATION

Installation Method

When installing the Modbus Gateway, please fix and install using Din Rail
And then it should be setting modbus address. (Modbus Address Setting : SW_02M)
Refer to 'Installation Scene' about modbus address and wiring.

(Example of Installation)

Modbus Address Table (SW_02M)

※ When factory shipped, Modbus address default is "1".

Modbus Address	SW_02M	DIP S/W No.				Modbus Address	SW_02M	DIP S/W No.			
		1	2	3	4			1	2	3	4
1		OFF	OFF	OFF	OFF	9		ON	OFF	OFF	OFF
2		OFF	OFF	OFF	ON	10		ON	OFF	OFF	ON
3		OFF	OFF	ON	OFF	11		ON	OFF	ON	OFF
4		OFF	OFF	ON	ON	12		ON	OFF	ON	ON
5		OFF	ON	OFF	OFF	13		ON	ON	OFF	OFF
6		OFF	ON	OFF	ON	14		ON	ON	OFF	ON
7		OFF	ON	ON	OFF	15		ON	ON	ON	OFF
8		OFF	ON	ON	ON	16		ON	ON	ON	ON

Installation Scene

Case 1. Single Module Installation Scene

Indoor unit can be connected up to 16 unit

CAUTION

- When connecting to an outdoor unit, it must be connected to the master unit of each outdoor unit.
- The communication line needs to match the A and B polarities. If it is incorrect, it will not work.
- First power on the indoor unit and the outdoor unit and then power on the Modbus Gateway after 3 minutes. Otherwise, it will not work properly.
- The address of indoor unit must be set only from 00 to 3F. Otherwise, the address can not be recognized by the Modbus Gateway.

(Installation Example)

<Fig.1>

CAUTION

- For the wired Power wire, Communication wire and Signal wire, remove the coating at the end of the wire to connect and then use the pin type (JOBN153) to connect to the terminal block
- All field supplied parts and materials and electric works must be conform to local codes.
- Use copper wire only.
- All wiring must be performed by an authorized electrician.

Pin type (JOBN153)

Case2. Series Module Installation Scene

The master module can connect up to three slave modules.

- The number of indoor units that can be connected depends on the number of modules.
- The Modbus address of each slave modules are fixed. (Reference in Fig 2. / Modbus Address Setting : SW_02M)

The number of Modbus Gateway	Indoor Unit
Master	Max. 16 Unit
Master + Slave(1 Module)	Max. 32 Unit
Master + Slave(2 Module)	Max. 48 Unit
Master + Slave(3 Module)	Max. 64 Unit

<Table 1>

CAUTION

- The number of connectable indoor units must be matched as shown in Table 1. Otherwise it will not work.
- If one or more modules of the Modbus Gateway connected in the Series broken, the indoor unit is not controlled normally.
- Master module address setting and Slave module address setting do not affect each other.

(Installation Example)

<Fig.2>

Case3. Single module combination Installation Scene

1. The number of indoor units that can be connected to the system increases depending on the number of Master modules.
2. It can be connected up to 16 indoor unit per master module.
- It can be connected up to 64 indoor unit through combination Installation
3. It should be set different address each master unit. (Modbus Address Setting : SW_02M)

CAUTION

- If the address of each master module is the same, it will not work.
- If more than 16 indoor units are connected to each Master module, it will not operate normally.

(Installation Example)

<Fig.3>

MODBUS GATEWAY MEMORY MAP

Baud Rate : 9 600 bps Stop Bit : 1 stop bit Parity : None Parity

Coil Register (0x01)

① No.	Data Bit			Function	Register

30005	Reserved	Pipe In Temp. ¹⁾	Sanitary Tank Temp.	-99.0 ~ 99.0 [°C] X 10	
30006	Reserved	Pipe Out Temp. ¹⁾	Solar Temp. ²⁾	-99.0 ~ 99.0 [°C] X 10	

* Note¹⁾ : This register value is applied 'DX Ventilator' ONLY.

* Note²⁾ : This register value is applied 'AWHP' ONLY.

Disposal of your old appliance(as per e-waste Rules)

1. When this crossed out wheeled bin symbol is depicted on the product and its operator's manual, it means the product is covered by the e-waste Management and Handling Rules, 2011 and are meant to be recycled, dismantled, refurbished or disposed off.

2. Dos

- a. The product is required to be handed over only to the authorized recycle for disposal.
- b. Keep the product in isolated area, after it becomes non-functional/un-repairable so as to prevent its accidental breakage.

Don't

- a. The product should not be opened by the user himself/herself, but only by authorized service personnel.
 - b. The product is not meant for re-sale to any unauthorized agencies/scrap dealer/kabariwala.
 - c. The product is not meant for mixing into household waste stream.
 - d. Do not keep any replaced spare part(s) from the product in exposed area.
3. Any disposal through unauthorized agencies/person will attract action under Environment (Protection) Act 1986.
 4. This product is complied with the requirement of Hazardous Substances as specified under Rule 13 (1) & (2) of the E-Waste (Management & Handling) Rules, 2011.
 5. To locate a nearest collection centre or call for pick-up (limited area only) for disposal of this appliance, please contact Toll Free No. **1800-180-9999** for details. All collection centre and pick up facilities are done by third parties with **LG Electronics India Ltd.** Merely as a facilitator.
For more detailed information, please visit : <http://www.lge.com/in>.
